Lighting, Lead TD, Compositing Maya Houdini Nuke XSI

Generalist Skills:ShakeAfter EffectsModellingPhotoshopUnity

Surfacing & shading Renderman Fur/grooming Mental Ray

Particle and cloth simulation

Rigging

I have over a decade of experience in VFX as a generalist, lighter and Lead TD using primarily Maya, Mental Ray and Renderman. I can composite using Nuke, After Effects and Shake.

I've used both **XSI** and **Houdini** for over 6 months at a time at Jim Henson's Creature Shop in London and Dr. D in Sydney, respectively. In my many generalist roles I've been required to texture, model, simulate, track, animate and composite as well as light / render.

My main strengths are lighting and compositing. I also have extensive experience using cloth, particle, hair and fluid simulation as well as character rigging (including muscle systems), modelling & texturing.

I am a very good generalist; my leaning is towards lighting and composting.

I also enjoy ironing out inefficiencies to help develop smoother pipelines and procedures. I have always got on with the teams I've worked with and count many ex-colleagues amongst my close friends.

Current Showreel

These are the projects included on my current showreel, in order of appearance. Please see my Shot Breakdown for further information.

FILM Harry Potter & the Order of the Phoenix — Lighting TD

The Golden Compass – Lighting TD

Narnia: Prince Caspian – Lighting TD

The Water Giant — Sequence Lead & Lighting TD
The Tale of Despereaux — Lighting and compositing
Happy Feet 2 — Keylighting and compositing

TV Mucha Lucha – Lighting & effects

How to Kill a Vampire – Modelling

PokerStars – Generalist: everything
Samsung – Lighting & compositing
Erikli Water – Generalist: everything

Pride – Lighting, rigging, fur/groom & compositing

Primeval – Lead TD, lighting, muscle rigging, pipeline development

Employment History – most recent first

Freelance TD – 3D generalist and lighting TD

Present occupation

Maya, Unity, Nuke, After Effects, Photoshop

I'm currently pooling from my 10+ years of VFX experience on short-term freelance projects.

While primarily a Maya Generalist and Nuke based compositor, I've also recently used Unity to create 3D environments for an augmented reality iPad app. Clients include Uli Meyer Studios and Imagination.

Dr. D, Sydney - Senior lighting TD

Happy Feet 2 - Houdini, 3Delight, Nuke

February 2011 – August 2011

I was in Sydney for 7 months for Happy Feet 2 primarily building, testing and lighting shots using Houdini, 3Delight and Nuke. I also created and maintained tutorial wikis for new starters, helping out where I could.

Commercials and Longform - Maya, Mental Ray, Nuke

I was a lighting TD on *Primeval 4* in The Mill's Longform department for 4 months, lighting several shots per day. With this and my work as Lead on Primeval series 1, I could make a 15-minute showreel entirely of dinosaur footage.

I also worked freelance in the Mill's commercials department on numerous jobs including Samsung, Reckitts and National Lottery spots. In commercials I was working in a generalist capacity as a one-stop-shop: modelling / shading, animating, creating particle/cloth FX + the usual rendering and compositing work in Maya and Nuke.

1000 Volt, Istanbul – Senior 2D/3D generalist

June 2009 - January 2010

Commercials and Film - Maya, Mental Ray, After Effects, Nuke

At 1000 Volt I took a six month contract in Istanbul as a senior 3D artist/supervisor.

While there I worked on numerous commercials as a 3D Lead.

On the Turkish film Yahsi Bati I was regularly on set as VFX supervisor.

This was to ensure our 3D team had everything necessary for post-production - including HDRIs, tracking markers, lens and photogrammetry data.

Framestore. Soho – Lead Technical Director

July 2004 - October 2008

Film and Longform - Maya, PRman & Liquid, Mental Ray, Shake

At Framestore I worked as a lighting TD on Narnia: Prince Caspian and The Golden Compass (which won the best visual effects Academy Award and BAFTA).

I also worked on *Harry Potter and the Order of the Phoenix* and the animated feature '*The Tale of Despereaux*' where I composited all my shots in Shake.

I was also Lead TD for the first season of ITV's *Primeval*. I supervised the 3D team with shader / look-development, pipelining, skinning/muscle, lighting and particle effects using Mental Ray. Before that I was a lighting and rigging TD on the BBC's docudrama *Oceans*. All feature work used Maya and was rendered in PRman / Liquid. TV work was lit using Mental Ray.

Jim Henson's Creature Shop – 3D generalist and lighting TD

Sept 2003 – June 2005

Film and Longform - Lighting, rigging, groom TD - Maya, XSI, Shake

I was at Henson's for around two years and worked on the BBC's Christmas special '*Pride*' using Maya, XSI, Mental Ray and Shake to rig, groom, light, and composite talking lions.

I also worked on look-development and lighting on the film 'Are we there yet?', was a sequence lead for the submarine rescue section of 'The Water Giant' feature and a lighting TD on the children's TV series 'Frances the Badger'.

Uli Meyer Studios, Camden – 3D generalist and lighting TD

June 2001 - Sept 2003

Commercials - Maya, Mental Ray, After Effects, Combustion

I worked full-time at Uli's for over two years where I was an integral part of their team of 3D generalists. I started as a runner and within 6 months I was promoted to IT Administrator.

I migrated to working solely on 3D projects soon after. I then worked on over 20 commercials and assorted TV pilots and series as a generalist.

Education

HND Graphic Design & Illustration	Southampton Institute	(Distinction)	(1995-1997)
B-Tec Technical Illustration	Mid Warwickshire College	(Distinction)	(1993-1995)
9 GCSE's including English, Maths and Art	Henley-in-Arden High School		(1988-1993)

Personal Interests

- I like to be outdoors, walking or cycling and I love to swim and practice yoga to stay fit.
- I studied art, photography and illustration and still enjoy being creative be it an innovative way to solve a practical problem or traditionally with pen-and-paper.
- I read novels, science and tech news sites and enjoy watching films on the home-cinema.
- I like to paint, I attend life-drawing classes and I'm often out and about with my DSLR camera.
- I've also shot interviews with Jiří Suchy (A celebrated Czech playwright), Warren Ellis and Lenny Henry.
